Professional Summary

Aspiring DevOps and Infrastructure Engineer with hands-on experience in Linux systems, networking fundamentals, Docker, Kubernetes, cloud-connected IoT systems, and automation scripting. Skilled in Bash scripting, Git, containerization, infrastructure monitoring, CI/CD concepts, and Linux administration with practical project experience using Raspberry Pi, AWS IoT, MQTT, and Firebase. Passionate about cloud-native technologies, DevOps automation, and infrastructure reliability engineering.

Technical Skills

Category	Skills
Linux & Systems	Linux Administration, SSH, System Monitoring, NGINX
DevOps & Cloud	Docker, Kubernetes, GitLab CI/CD, Jenkins Basics, Ansible Basics, AWS IoT
Programming & Scripting	Bash Scripting, Python, Golang Basics, YAML, C
Networking	TCP/IP, DNS, DHCP, NAT, Routing, Switching, HTTP/HTTPS, Subnetting
Tools & Platforms	Git, GitHub, Firebase, MySQL, Raspberry Pi, VS Code
Concepts	Containerization, CI/CD, Infrastructure Automation, Monitoring Basics

Projects

Dockerized NGINX Monitoring Environment

- Built a containerized Linux-based web server environment using Docker and NGINX.
- Configured Docker containers and custom NGINX configurations for hosting sample applications.
- Wrote Bash scripts to automate container deployment and log monitoring.
- Practiced Kubernetes deployment basics using Pods and Deployments.
- Managed configuration files using YAML manifests and Git version control.
- Technologies: Docker, Kubernetes, NGINX, Bash, YAML, Git, Linux

Smart Waste Segregation Bin for Hospitals

- Developed an IoT-enabled smart waste management system using Raspberry Pi and AWS IoT.
- Implemented MQTT-based communication for real-time sensor data transmission and monitoring.
- Integrated Firebase cloud connectivity for remote monitoring and synchronization.
- Worked with Linux-based Raspberry Pi environment and Python automation scripts.
- Technologies: Raspberry Pi, Linux, Python, MQTT, AWS IoT, Firebase

Education

Amal Jyothi College of Engineering (Autonomous)

B.Tech in Computer Science Engineering | 2022 – 2026 | CGPA: 7.2

St Joseph's Higher Secondary School

Higher Secondary Education | 98.7% | 2022

Certifications

- Oracle Cloud Infrastructure AI Foundation Associate – 2025
- Oracle Cloud Infrastructure Generative AI Professional – 2025
- Oracle Cloud Infrastructure Data Science Professional – 2025
- NPTEL Elite Certification – Database Management System

Soft Skills

- Problem Solving
- Troubleshooting
- Analytical Thinking
- Team Collaboration
- Technical Documentation
- Continuous Learning
